Education

Chhattisgarh Swami Vivekanand Technical University (CSVТУ)

Aug 2025 – Present

Bachelor of Technology Computer Science and Engineering – 8.1/10 CGPA

Bhilai, Chhattisgarh

State Board of Technical Education (SBTE) , Bihar

Sep 2022 – June 2025

Diploma in Computer Science and Engineering – 8.78/10 CGPA

Patna, Bihar

Experience

Birena InfoTech OPC Private Limited

Sep 2025 – Feb 2026

Software Developer

Patna, Bihar

- Developed a Social Media Management System to simplify content management across multiple client accounts from a single platform. This platform reducing manual effort for marketing teams.
- Built secure RESTful APIs, authentication modules, and database services using Spring Boot, Spring Framework and also using Node.js, Express.js and MongoDB to support daily business operations.
- Deployed applications on AWS EC2 using Docker and Kubernetes, with CI/CD automation through Jenkins, Terraform, and Ansible.

Projects

Voice Broadcasting SaaS Platform | Asterisk PBX, Spring Boot, React.js, MongoDB

June 2026

- Built a Voice Broadcasting SaaS platform capable of managing bulk outbound calling campaigns with automated contact processing and campaign tracking.
- Designed a secure multi-user system with Spring Security, RBAC, rate limiting, and input validation to protect platform resources.
- Integrated Asterisk PBX and SIP protocols to support concurrent outbound calls, real-time call monitoring, and automated voice message delivery.

Vulnerability Scanner platform | Python, Flask, React.js, Redis, Celery, OpenRouter LLM

April 2026

- Developed a vulnerability Scanning platform capable of performing security scans against web targets.
- Built a distributed scanning pipeline using Redis queues, Celery workers, and parallel task execution to efficiently process concurrent scan requests and provide realtime scan tracking.
- Leveraged OpenRouter-powered LLMs to transform raw security findings into actionable reports containing risk scores, attack impact analysis, security insights, and remediation guidance.

Hospitality Management SaaS Platform | React.js, Node.js, Express.js, PostgreSQL

December 2025

- Developed Hospitality Management SaaS platform that unified hotel operations, restaurant management, billing, payments, reporting, and user administration within a single system.
- Designed the backend using a Modular Monolith Architecture and Improved application performance through Redis caching, database optimization, and efficient API design, enabling low-latency access to booking, billing, and operational data.
- Deployed and maintained the platform on AWS with Nginx reverse proxy, secure authentication, access controls, monitoring, and data protection mechanisms to support reliable real-world hotel operations.

Technical Skills

Languages: Core Java, Advanced Java, JavaScript, Python, C++, SQL

Full Stack Development: Spring Boot, Spring Core, React.js, Node.js, Express.js, MongoDB, PostgreSQL, MySQL

Cybersecurity: Burp Suite, Nmap, Nuclei, SQLmap, Wireshark, , Katana

Cloud & DevOps: AWS, Linux, Docker, Ansible, Jenkins, Terraform, Kubernetes

Tools: Git, GitHub, Postman

Certifications

Cybersecurity - Penetration Testing and Exploitation Techniques – Coding Spoon (June 2026)

Data Base Management System (Elite) – NPTEL, IIT Kharagpur — (July - Sep 2024)

CCNAv7: Introduction to Networks – Cisco Networking Academy (July 2023)

Cybersecurity Essentials – Cisco Networking Academy (June 2023)

Achievements

Champion, TechSprint Hackathon 2026 – GDG, Rungta International Skills University
